Many people think that how they age - if they remain mobile, healthy, and pain free throughout their entire lives - is simply the result of luck. As though there's a randomness to it, or it's a lottery in which only a few winners enjoy golden years of youthful vitality. But did you know that you actually have a choice in how you age? In AGING BACKWARDS 2 WITH MIRANDA ESMONDE-WHITE, former professional ballerina Miranda Esmonde-White uses new and groundbreaking science to help put an end to this defeatist attitude towards aging. In her previous award-winning special Aging Backs, Esmonde-White revealed the power of our muscle cells. Now in AGING BACKWARDS 2, viewers discover the amazing clout of their connective tissue. This vital tissue surrounds every part of us and connects - every muscle, nerve, cell, bone and organ. Keeping it healthy is the secret to remaining youthful at any age. The human body is a powerful machine, but we must choose to keep it young. The fountain of youth is within each of us, and Esmonde-White teaches viewers how to access it. We all have financial issues and problems. Suze Orman's latest special sharply focuses on her helping individual viewers "find financial solutions for you." As always, Suze's advice is based not just on numbers, but on a critical understanding of ourselves and our emotional needs. The special's central theme is that our financial decision-making should be guided by an understanding of "the goal of money." As Suze perceptively defines it: "The goal of money is to make you feel secure." Our financial solutions should work to fulfill that goal. In addition, Suze stresses the importance of making financial decisions that you feel comfortable with. Financial problems are caused when you do things with money that do not seem "right" to you, despite pressures and advice from others.
