10:30 PM STREETS OF WYNWOOD - **D**

Once a year, when the Art Basel fair comes to Miami, street artists from across the globe converge on the city's Wynwood neighborhood to create and compete. Each December, the walls of this former warehouse district are spectacularly transformed as new works by the world's best taggers, graffiti writers and muralists are painted over prior exhibits. STREETS OF WYNWOOD takes viewers inside this fascinating yet little-known global subculture that spans the artistic gamut from "tagging" and graffiti to towering murals of astonishing quality. Some works might endure for years, while others vanish or are defaced within days of completion. Filmed during recent Art Basel Miami festivals, the documentary is both an immersive journey into an eye-popping street art jamboree, unparalleled in any other city, and a thoughtful exploration of a burgeoning artistic movement where internationally renowned artists such as America's Shepard Fairey, Brazil's Eduardo Kobra, South Africa's Faith 47th and the mysterious Londoner known as Banksy are highly sought after by art collectors, galleries and museums. 9:00 PM NOVA: SAVING THE DEAD SEA  
There's no place on Earth like it. Cleopatra attributed her beauty to its secrets. King Herod built one of the world's first health spas on its shores. And as the biblical story goes, "rocks and fire falling from the sky" buried Sodom and Gomorrah and the sea became "the sea of salt" -- The Dead Sea. Now this wonder of the world is dying. Since 1976, its level has declined by more than sixty-five feet. Its coastline is pockmarked with thousands of sinkholes. Can the Dead Sea be saved? After more than a decade of research and debate, scientists, engineers and political leaders have come up with a daring plan, one that could not only save the sea but help bring stability to a region rife with conflict. NOVA follows this unprecedented endeavor - perhaps the world's largest water chemistry experiment ever - as scientists and engineers race to save the Dead Sea and help bring water to one of the driest regions on Earth.
